Sir:

Applicants hereby re-submit their Petition to Make Special this application (Serial No. 10/628,906), as it appears that the previously filed Petition to Make Special was lost by the Patent and Trademark Office ("PTO") after it was received by the PTO. The previously filed Petition is attached as **Exhibit A**. On August 12, 2004, I spoke with Examiner Ton, the Examiner assigned to this application, to request a status update on the Petition. She indicated that there was no record in PALM that the Petition had been received by the Petitions Branch. However, back in December, 2003, I received a return postcard from the PTO, bearing the PTO stamp, indicating that the Petition was received on December 16, 2003. This postcard is attached as **Exhibit B**. As further evidence

I hereby certify that this paper (along with any referred to as being attached or enclosed) is being deposited with the United States Postal Service on the date shown below with sufficient postage as First Class Mail in an envelope addressed to the Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

that Applicants' Petition was received and acted upon at least in part by the PTO, I note that the attorney docket number has been changed as requested in the Petition. Both the Filing Receipt and the Notice to File Missing Parts of Non-provisional Application, attached as **Exhibit C**, bear the incorrect attorney docket number of 704484.4001. When I filed the Petition, I requested that this docket number be corrected. A recent PAIR printout for this application, attached as **qw**, shows the correct attorney docket number of 703567.4001. Thus it appears that the Petition was lost somewhere within the PTO, after the docket number was corrected. In light of this eight month delay caused by the PTO, applicants would appreciate the immediate consideration and grant of their Petition to Make Special, as well as an appropriate Patent Term Adjustment on any patent that arises from this application.

Respectfully submitted,

Sir:

37 C.F.R. § 1.102(c) allows an applicant to petition that a patent application be made special if that patent application is for an invention that will materially contributed to the conservation of energy resources. MPEP § 708.02 requires that such petition be accompanied by a statement under 37 C.F.R. § 1.102(c) from the applicant or his attorney/agent explaining how the invention contributes to the conservation of energy resources. 37 C.F.R. § 1.102(d) and M.P.E.P. § 708.02 specify that there is no fee for filing a petition to make special under 37 C.F.R. § 1.102(c).

Applicant hereby requests that this application be made special, because the subject matter

claimed in this application will materially contribute to the conservation of energy resources.

The subject matter claimed in this application is directed to reducing leakage currents across circuit components. This reduction in leakage current results in a reduction in power dissipation in the circuits containing the circuit components. Reducing the power dissipation of a circuit directly reduces the usage of energy in the circuit, which results in conservation of energy resources, for example by extending the battery life of a battery used to power the circuit.

Based on the foregoing, applicant respectfully submits that the application is entitled to be made special in accordance with 37 C.F.R. § 1.102(c). Applicant respectfully requests that this Petition to Make Special be granted.

As noted above, applicant believes that there is no fee required for this petition. However, the Commissioner is hereby authorized to charge Orrick's Deposit Account No. 15-0665 for any fees that are required, and to credit any overpayments to said Deposit Account.

Change in Attorney Docket Number:

Please change the attorney docket number to 703567.4001.

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
